

Auchmuty High School recently hosted the challenge match between Woodmill High School Chess Club and a Glenrothes School Chess Selection.

The Glenrothes team was made up of five pupils from Auchmuty High School and five from Carleton, Markinch and Newcastle primaries. Though the Woodmill pupils were generally older, the Glenrothes players had, on the whole, a great deal more experience this made for an interesting and competitive match. Woodmill took an early lead, winning two of the early matches. However, the experience of the new town players told in the end and Glenrothes eventually ran out winners by the margin of 6 ½ to 3 ½.
